› A collection of stories, not just recipes. ‹

This cookbook is a collection of stories — stories tied to memories, emotions, and moments that stay with us long after the meal is over.

Each dish in these pages comes from someone at Eliatra and Search Guard and reflects a place, a feeling, or a tradition that matters to them. Some are quick weeknight staples, others are meals connected to holidays, travels, or shared tables with friends and family. What they all have in common is that they were cooked with care, shared with others, and enjoyed more than once.

At Eliatra and Search Guard, we're a distributed team, spread across countries and cultures. This book is our way of bringing those connections together: a snapshot of who we are, beyond our screens and Slack channels. Food is one of the simplest ways we connect those dots.

We hope you'll cook from it, adapt the recipes, and maybe even add a few of your own stories along the way.

SAXON POTATO SALAD

INSTRUCTIONS

- 1** For the potato salad, first boil the potatoes in their skins. Then peel them and let them cool.
- 2** Cut them into small cubes and place them in a bowl. Also dice the pickles, onion, and apple into small pieces and add them to the potatoes.

500 g potatoes

200 g meat salad

5 pickles (gherkins)

1 onion

1 apple

1 tsp. mustard

1 tsp. salt

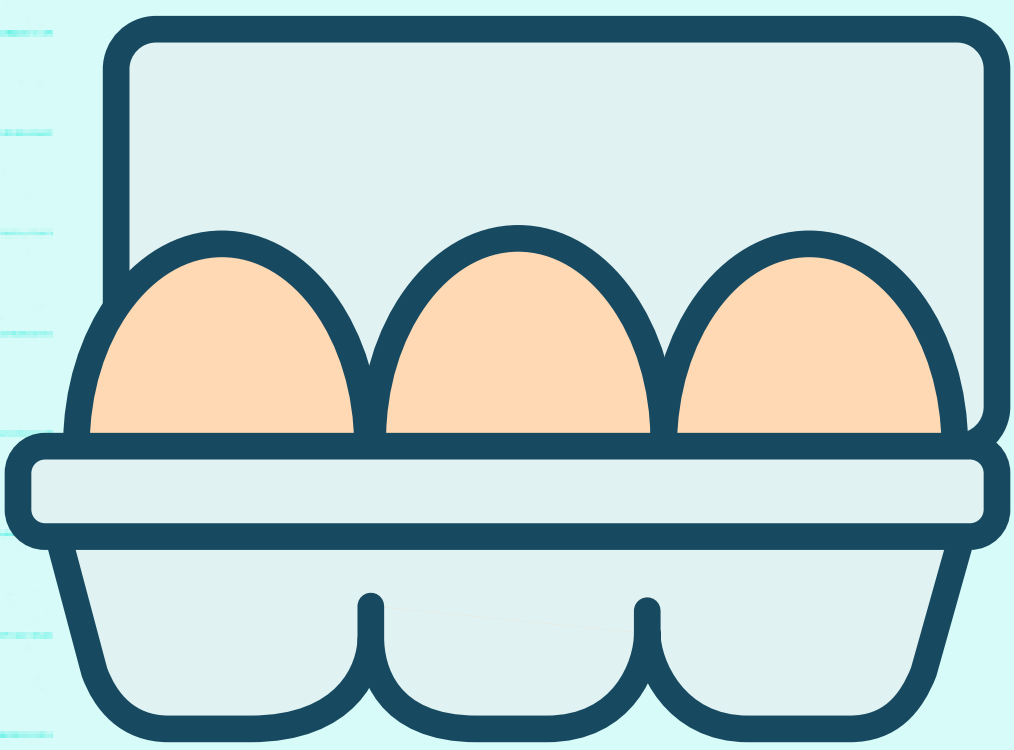

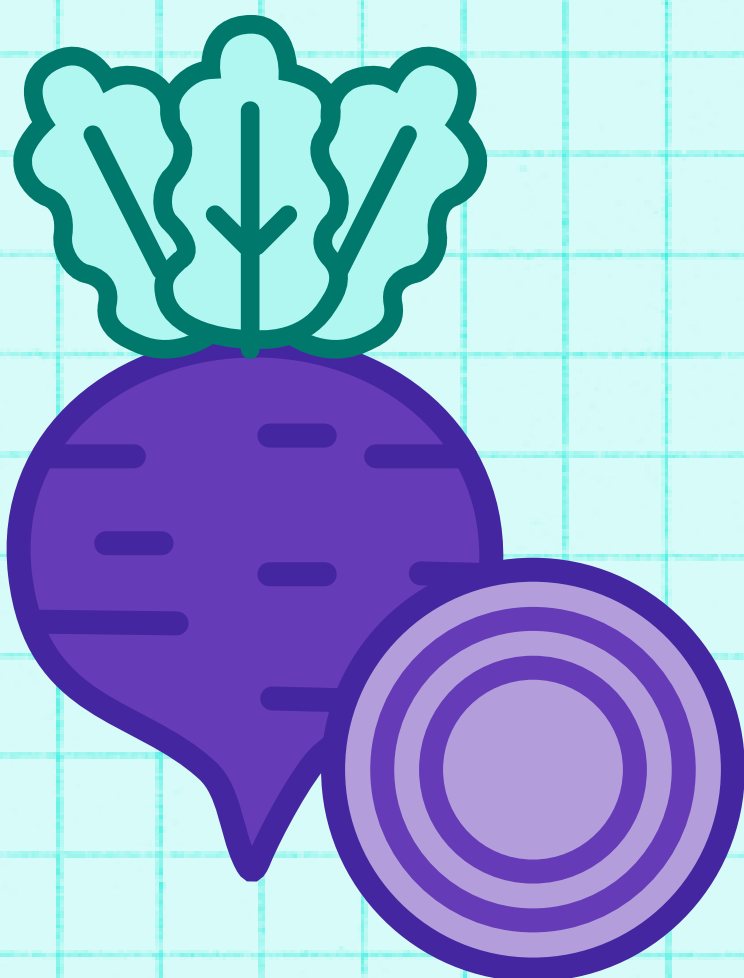

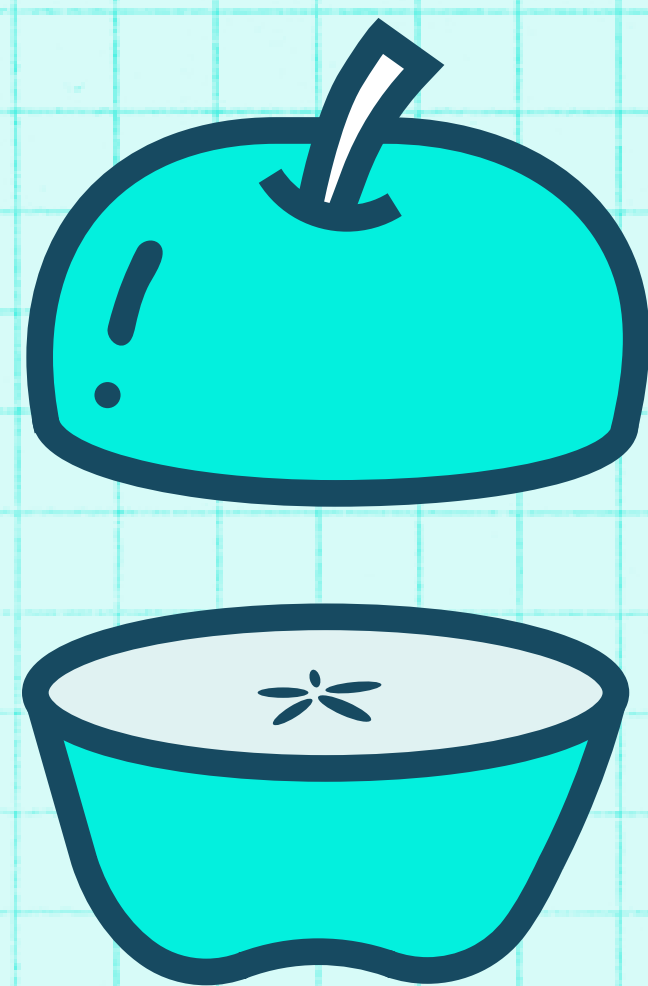

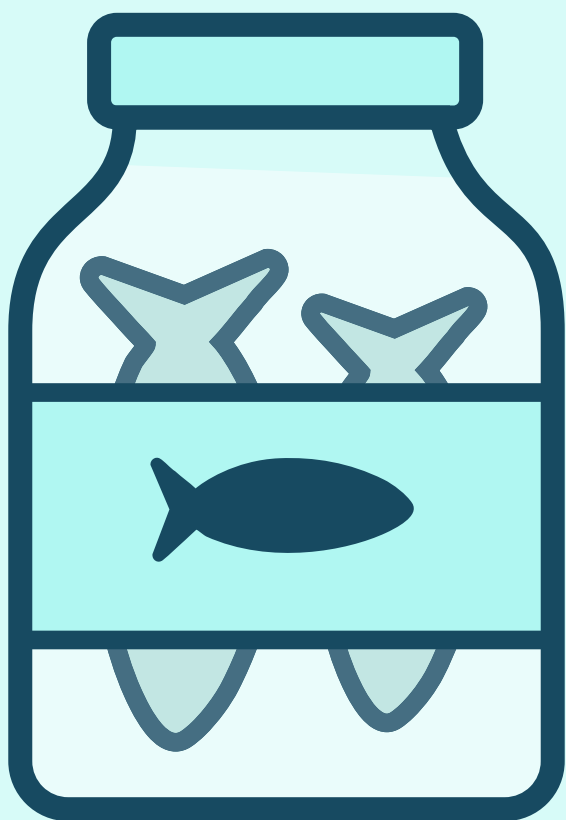

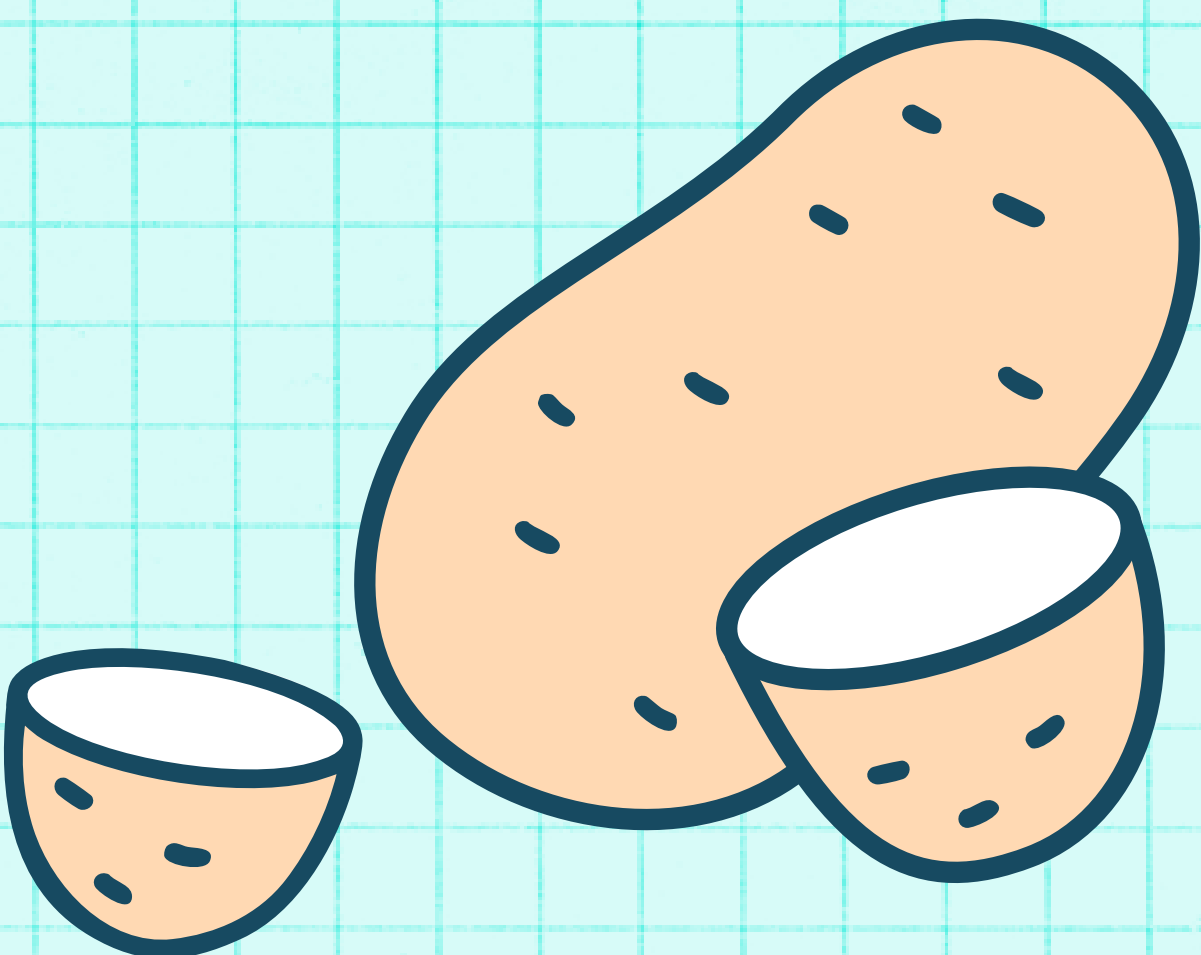

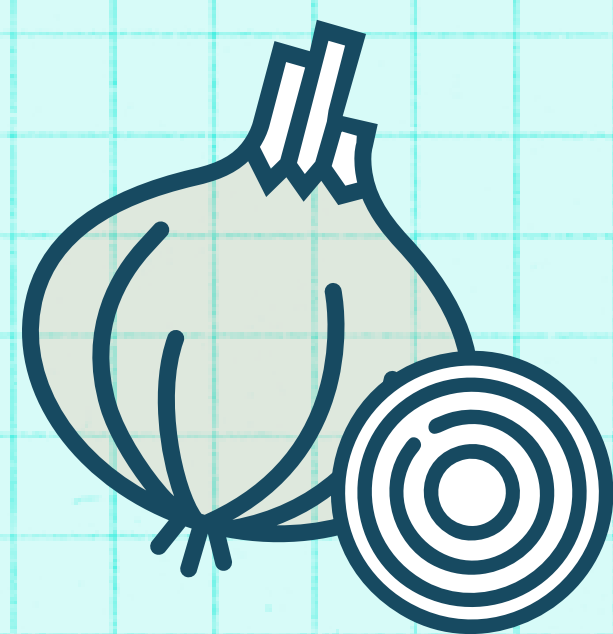

Mayonnaise

Pickle juice

› I think I just saw the recipe on Instagram one day and decided to try it myself. Changed a few things over the years and that's the outcome! I often get asked to cook it for parties and I was told that apparently, this rice can also help when suffering from a hangover. ‹

EGG FRIED RICE

INSTRUCTIONS

First of all, the quantity of the ingredients is only a rough estimation (I usually freestyle this and use whatever I have in my fridge). You can also use other ingredients if you want, the foundation of this dish is already in its name: Egg and Rice. Everything else is up to you!

- 1 Cut everything in bite-sized pieces. For the spring onion, you want to separate the green and the white parts and cut it in small pieces. The green part of the spring onion will be added right at the end.
- 2 Add some oil to a frying pan (or a wok if you have it) and cook the chicken on medium high heat for a few minutes until it is thoroughly cooked. Place to the side.
- 3 Crack the eggs into a bowl, stir until the egg yolk and the egg whites are mixed. Add the mixture to the pan and cook the eggs on medium-low heat. You want to have scrambled eggs at the end, so don't forget to stir. Right before the eggs are ready, add a little soy sauce and stir. Place to the side.

PREP: 20 min

COOK: 15 min

SERVINGS: 3-4

INGREDIENTS

Cooked Rice (leftover from the day before if possible)

3-4 eggs

1 red pepper

2 spring onions

3-4 ginger (or ginger paste, saves you a lot of work)

2 shallots
(or 1-2 normal onions)

2-3 cloves of garlic

500 g chicken
(breast or thigh, up to you)

Peas (like a cup or so)

1 tsp. of sambal oelek

(dark) soy sauce
(or fish sauce, whatever you like more)

oil (sesame if possible, but any vegetable oil will do)

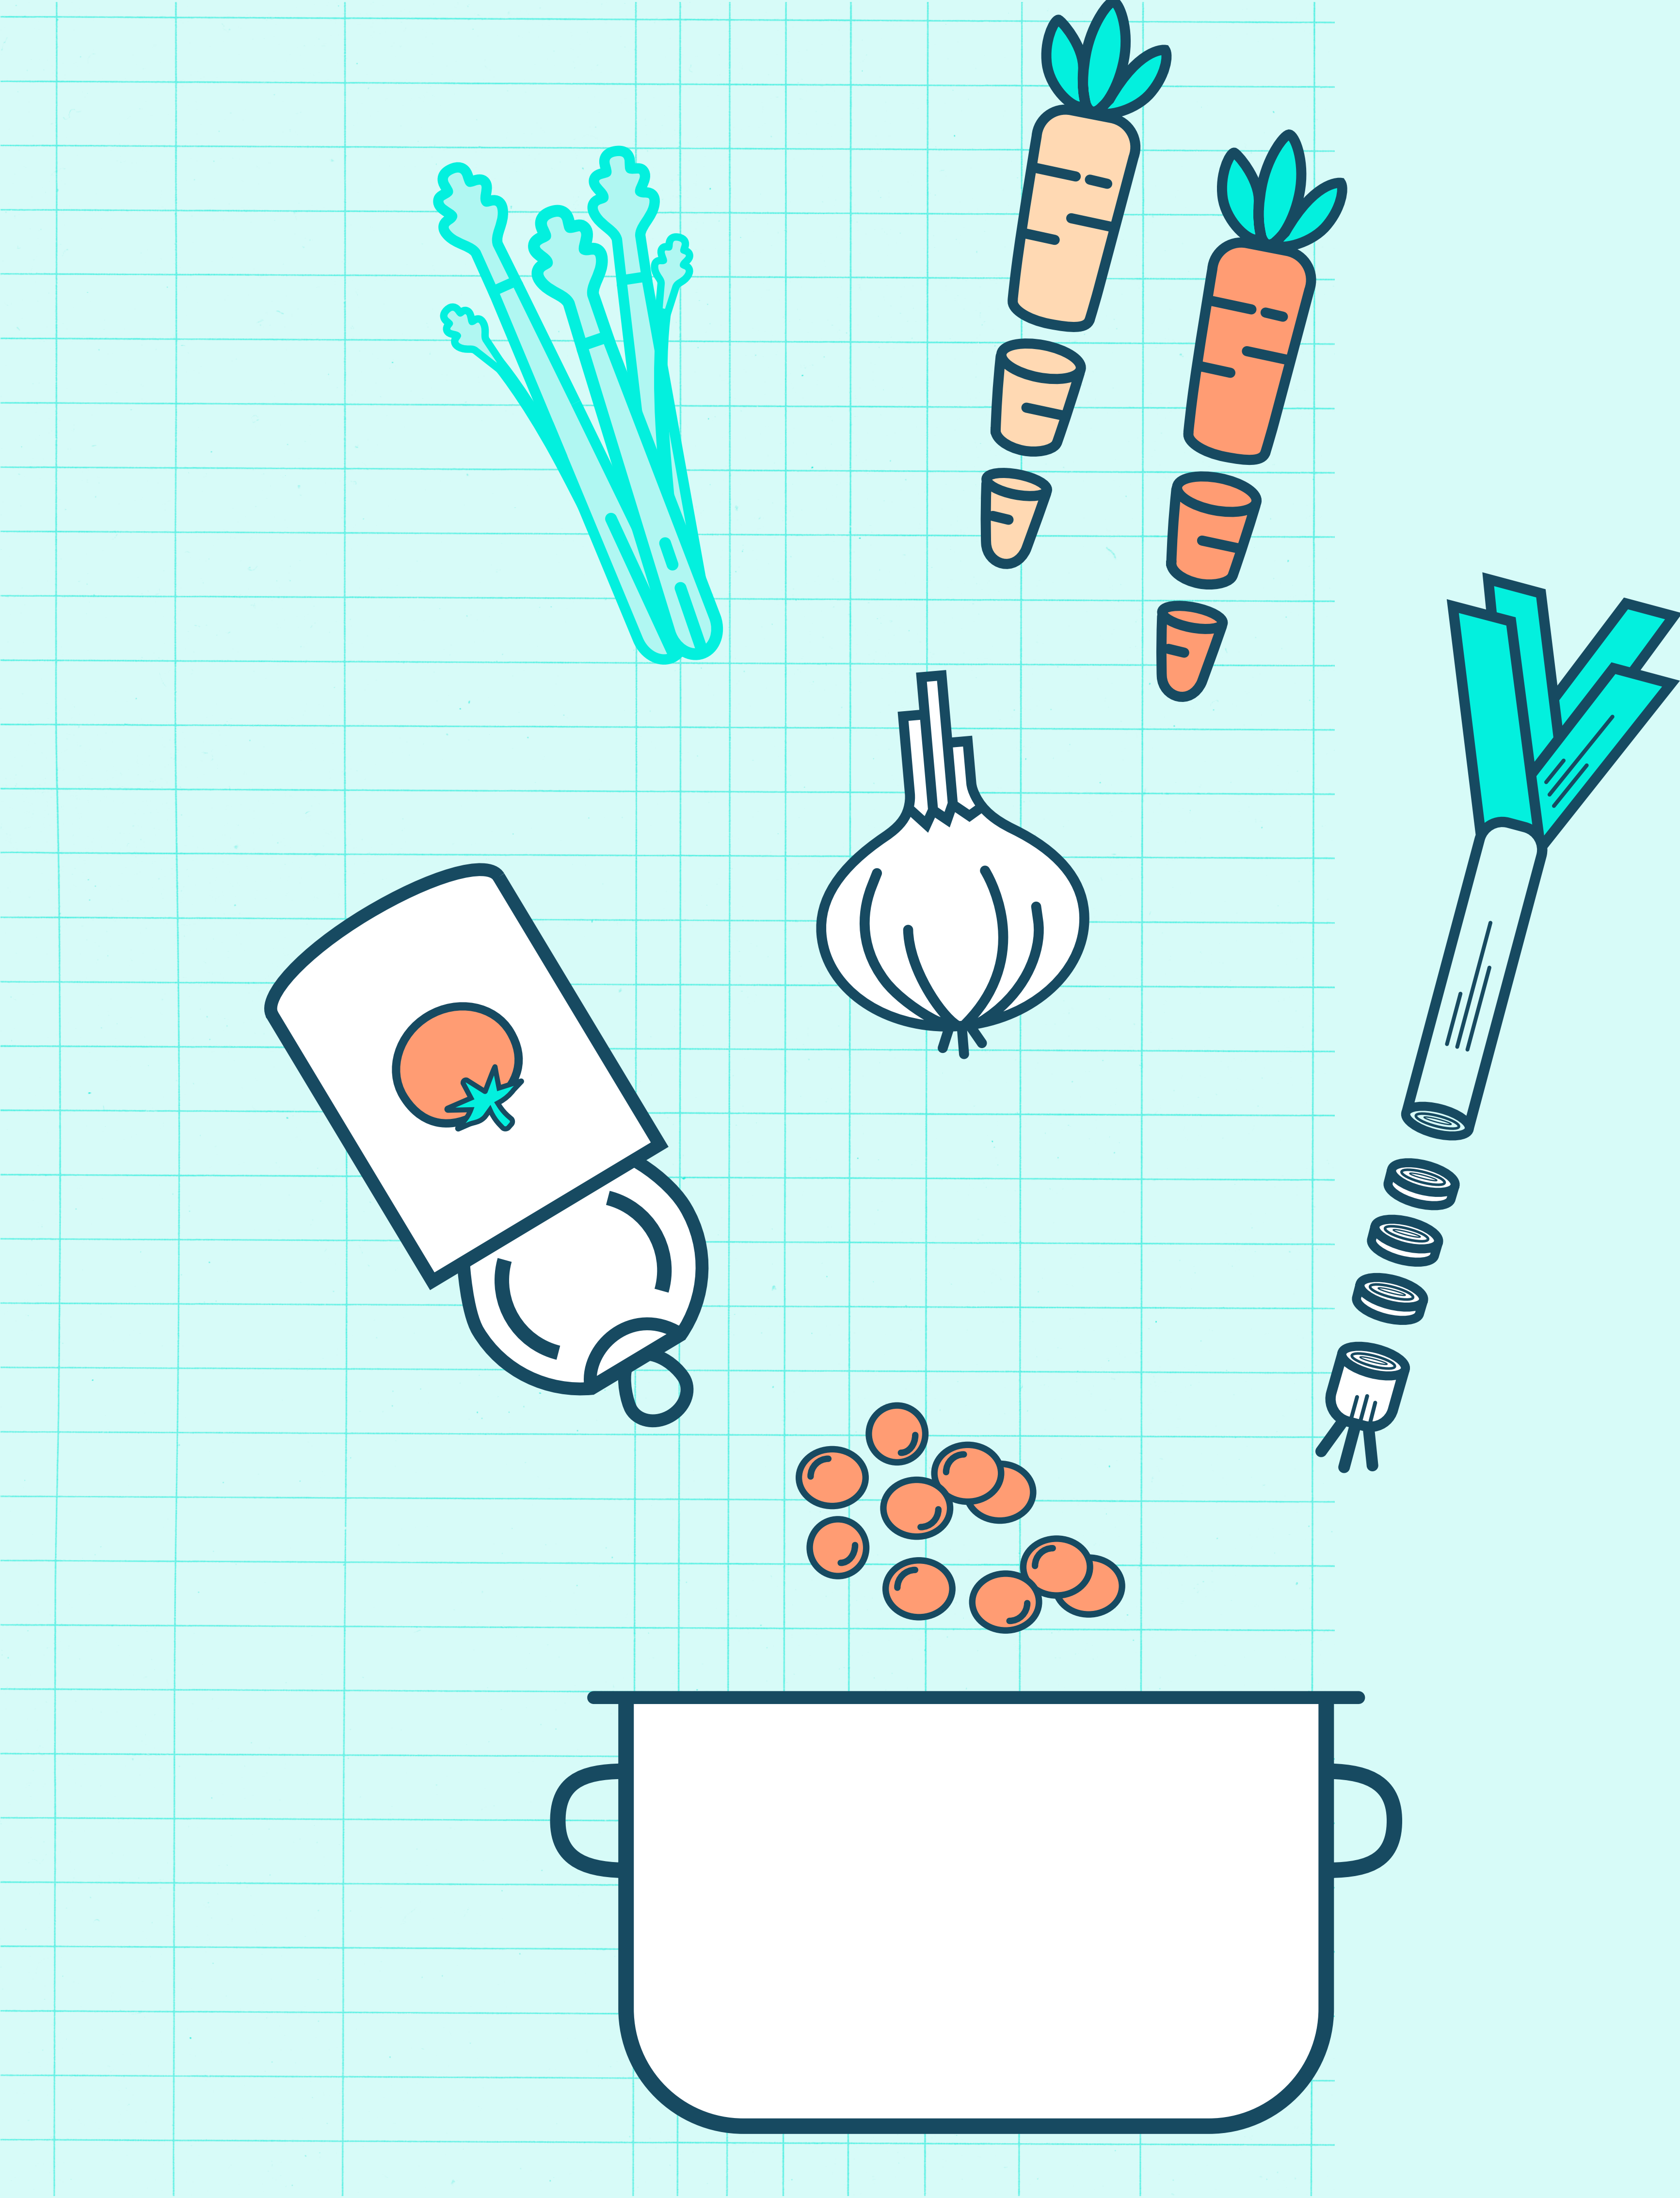

4 Add the shallots, white parts of the spring onion, garlic and ginger to the pan and reduce the heat to medium. Cook for a few minutes, then add the pepper and the peas and stir. After a few more minutes, place to the side.

5 Again, add a little bit of oil and the (leftover) rice to the pan and cook on medium-high/high heat. It is important to stir continuously, otherwise the rice will burn and stick to the pan.

6 After a few minutes, add some sambal oelek to the rice and stir until it is spread evenly (if you never had sambal before, be aware that it is pretty spicy and one tea spoon might even be too hot for some people).

7 After that, add some soy sauce to the rice and continue stirring. You will see that the rice will start to get a little brown (if it did not already).

8 Reduce the heat to medium, add everything you placed aside to warm it up a bit and mix thoroughly. Taste for salt and pepper, maybe add a bit of sambal if it is not spicy enough. Garnish with the green parts of the spring onion and **enjoy!**

VEGETARIAN LENTIL BOLOGNESE

PREP: 20 min

COOK: 40 min

INGREDIENTS

Olive oil

1 large onion

2 large carrots

2 stalks celery

Some celery root (optional)

¼ stalk leek

Pinch of sugar

1 tbsp. tomato paste

250 ml red wine

1 can diced tomatoes

150 ml passata

200 g red lentils

Salt, pepper

Vegetable broth/stock

Oregano

Milk

Parmesan or Pecorino cheese

INSTRUCTIONS

This dish is a vegetarian alternative to classic Bolognese sauce and tastes best with tagliatelle or spaghetti. If you omit the butter and milk or use margarine and oat milk instead, it can even be made completely vegan.

1 Finely chop the onion, carrots, celery, and leek. Heat olive oil and a piece of butter in a wide pan or large pot—a wok also does wonderful service here. Sauté the onion, carrots, celery, and leek with a pinch of sugar over medium heat until the onions are translucent. Then stir in a tablespoon of tomato paste and briefly sauté together.

2 Increase the heat and deglaze everything with a robust red wine. Depending on taste, you can use more or less wine, but it should be at least 250 to 350 ml.

Continue simmering over medium heat until the alcohol has evaporated. Pour the rest of the wine into the cook.

Depending on the amount consumed, the following steps can then be designed as creatively as desired.

3 Add a can of diced tomatoes and 150 ml of passata. TIP: If you don't have passata at home, you can instead process a few tomatoes with a kitchen blender until the consistency is roughly the same.

The whole thing now needs to simmer for a long time over low heat with the lid closed. The longer it simmers, the more flavor—unfortunately anything under an hour won't do. In the meantime, you can wash the lentils. Depending on taste, you can use more or fewer lentils here too, but 200 g is a safe bet.

4 Now set to medium heat and add the lentils. Cook the sauce until the lentils are al dente, but not too soft or mushy. At the same time, put the pasta water on and cook the pasta. When the pasta is al dente, drain it and save some pasta water.

5 After about 15-20 minutes, the lentils should be ready. Now add a splash of milk and season everything with salt, pepper, vegetable broth, and oregano. If the sauce is too liquid, simply reduce it a bit more. If it's too thick, add some of the reserved pasta water. Fold the pasta into the sauce and briefly cook together again. Serve on a plate and sprinkle with Parmesan or Pecorino to taste.

› In the 1990s, my mom lovingly typed up our most popular old family recipes on the PC with meticulous care and created a cookbook of over a hundred pages, which she gave as gifts to her children, nieces, nephews, and now also grandchildren. From it, I selected the leek-onion tart, which my mom often baked for the buffet at our large family celebrations in Ravensburg. I continued the tradition in Berlin and baked the leek-onion tart for various student parties in our Kreuzberg shared apartment. Meanwhile, we've also baked it for numerous buffets at our daughter's school events and have passed the recipe on again and again to friends.

The leek-onion tart is not particularly complicated, it just needs some time because of the yeast dough, and since it's very hearty and savory, even non-vegetarians enjoy it :-)

P.S. Instead of butter, we now use olive oil. ›

» When I was little I loved my mothers apfelstrudel! But it was a real drama to bring her to produce one so it was always a special occasion :)

a) She said it needs to be made from very fresh eggs – ideally right out of the hen into the bowl...

b) She found it to be too much work

One day I found the following recipe and from that day on i just did it myself whenever i felt like it, it requires no eggs and nothing fancy (just vinegar oil salt water and flour) and you can even use other stuffings like bolognese or spinach and cheese or nuts and honey... anything really just as the title says it has become my signature dish. «

STRUDEL DOUGH FOR ALL TYPES OF FILLINGS

PREP: 30 min

BAKE: 50 min

INGREDIENTS

300 g (about 2 ½ cups) **flour**
(all-purpose)

5 tbsp. oil (sunflower or neutral
vegetable oil)

½ tsp. salt

1 tbsp. vinegar (white wine or
apple cider vinegar)

about ¼ l hot water (1 cup)

**a little flour for dusting the
work surface**

some oil for greasing the dough

some melted butter for brushing

INSTRUCTIONS

- 1** Sift the flour onto your work surface and make a well in the center.
Pour 5 tablespoons of oil into a measuring cup, add ½ teaspoon of salt, 1 tablespoon of vinegar, and fill up to ¼ liter (250 ml) with hot water.
- 2** Pour the liquid into the flour. From the center outward, mix the flour into a smooth dough. Start stirring gently, then knead with floured hands.
- 3** Beat the dough 50 to 70 times on the floured surface until it's shiny and elastic.
Shape it into a ball, rub it with oil, and let it rest for 1 hour under a bowl.
- 4** Lay a linen cloth on a table that you can reach from all sides.
Roll out the dough on it with a rolling pin into a thin rectangle.
- 5** To stretch the dough, lift it up and place it over the backs of your hands, gently pulling it outward. Work from the center to the edges. Cut off any thick edges.

6 Brush the dough with melted butter to make it more pliable.

Place your filling along one-third of the long side. Roll the strudel by lifting the cloth, folding in the edges to seal the sides.

Roll out the dough on it with a rolling pin into a thin rectangle.

7 Lift the strudel (still on the cloth) and place it on a greased baking tray, seam side down. Curve it into a U-shape if necessary. Brush with butter and bake at 200 °C (Gas Mark 3 / 390 °F) for 40–50 minutes, brushing several times with butter during baking so that the crust turns flaky.

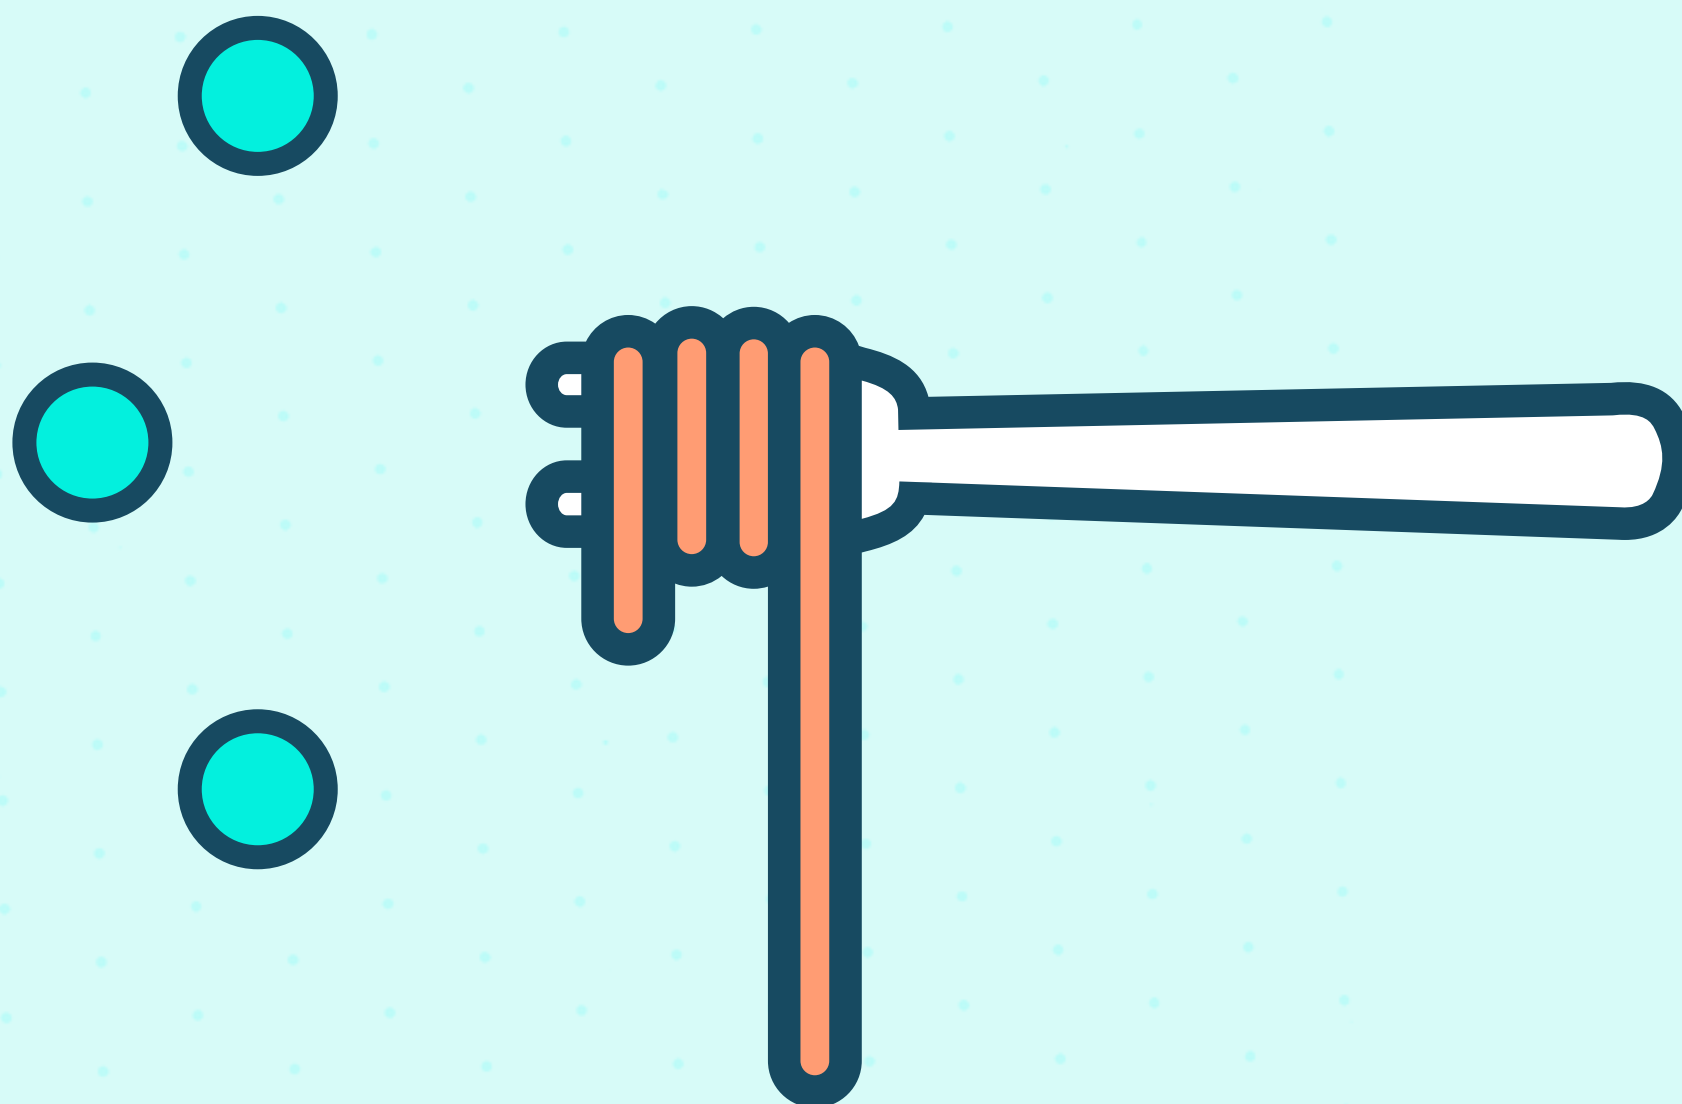

Strudel is a traditional dish in southern Germany and Austria.

The dough is the most important part. It should wrap the juicy fillings, prevent them from drying out, and keep the aromas from escaping.

The dough should be so thin that you can clearly see the pattern underneath it.

Don't worry—it's easier than it sounds!

HONEY-GARLIC GLAZED SALMON

PREP: 5 min

COOK: 20 min

SERVINGS: 4

INGREDIENTS

1/3 cup honey

1/4 cup soy sauce
(reduced-sodium)

2 tbsp. fresh lemon juice

1 tsp. red pepper flakes
(crushed)

3 tbsp. extra-virgin olive oil,
divided

4 (6-oz.) salmon fillets
(patted dry with paper towels)

Kosher salt

Freshly ground black pepper

3 garlic cloves, minced

1 lemon
(thinly sliced into rounds)

INSTRUCTIONS

- 1** In a medium bowl, whisk honey, soy sauce, lemon juice and red pepper flakes.
- 2** In a large skillet over medium-high heat, heat 2 Tbsp. oil. When oil is hot but not smoking, add salmon skin side up; season with salt and black pepper. Cook until flesh is just heated through and seared, about 2 minutes.
- 3** Flip salmon skin side down and add remaining 1 Tbsp. oil. Add garlic and cook until fragrant, about 1 minute. Add honey mixture and lemons and cook, basting salmon occasionally, until sauce is reduced by about one-third, about 3 minutes more.

RECIPE TIPS

How to cook the best salmon

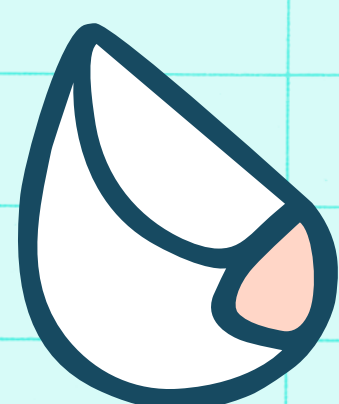

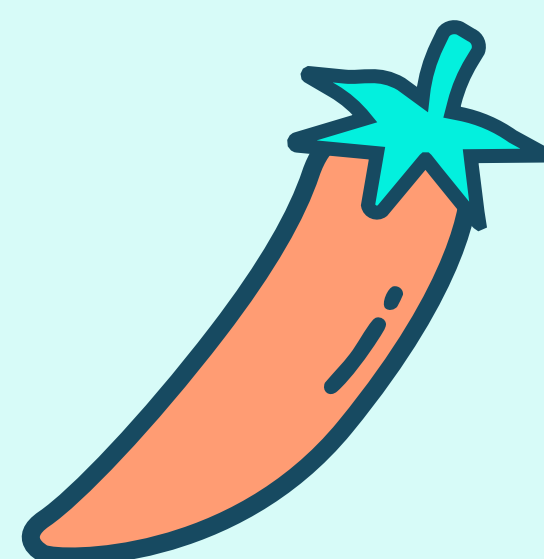

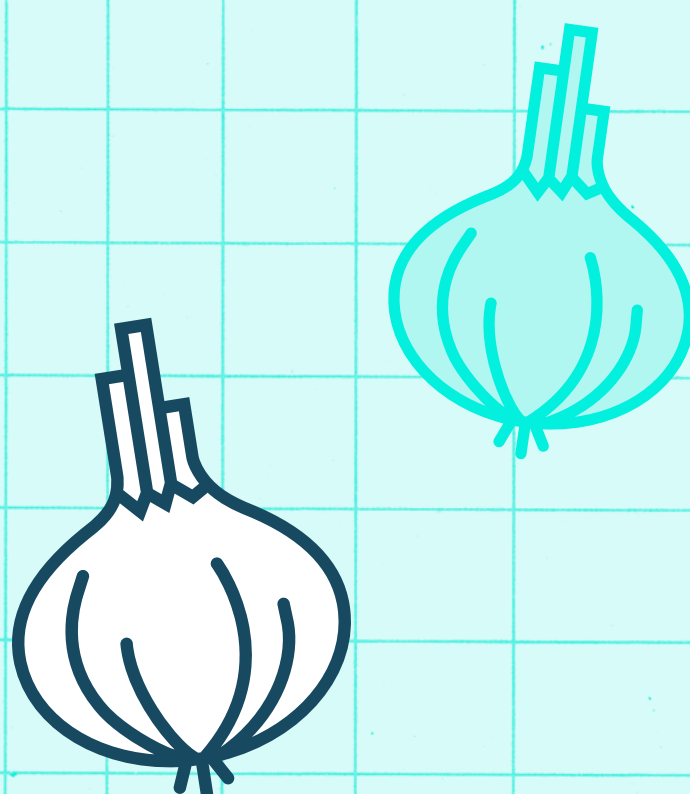

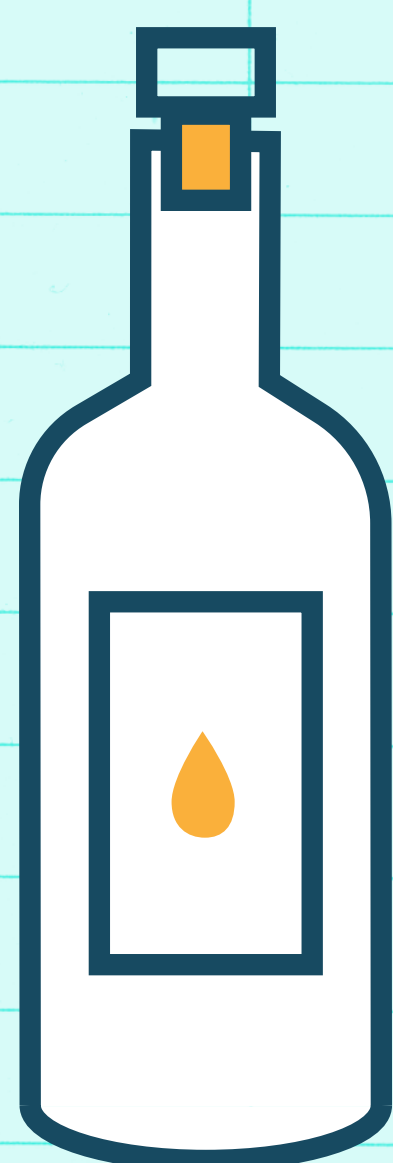

Let the fillets cook, undisturbed, for a few minutes. That (along with the high heat) is how you get that delicious crust. After about 3 minutes, use a spatula to gently lift a corner of one fillet. If it releases easily, it's ready to go. If not, give it a little more time. Flip, cook a few more minutes to get the skin crisp and the fish cooked through, and you're good to go!

TANDOORI CHICKEN

INSTRUCTIONS

1 Prepare the Chicken:

Slice the chicken breast or thigh into thin strips for even and faster cooking.

2 Make the Marinade:

In a mixing bowl, add sarson ka tel and Kashmiri lal mirch, mix well till the oil takes on a rich red color. Add the rest of the masalas and ingredients. Mix well to form a smooth marinade.

3 Marinate the Chicken:

Coat the chicken pieces well and keep aside for at least 1–2h (longer marination = juicier flavor). Do not marinate beyond 20h in the fridge, or it may spoil.

4 Smoking (Dhungar):

Place a small katori (bowl) in the marinated chicken, drop in a piece of hot charcoal, drizzle ghee on it, and cover immediately for 4–5 min.

For mild smokiness, smoke at marination stage.

For medium smokiness, smoke after grilling.

For bold smoky flavor, smoke just before serving.

4 Grilling:

Heat a grill pan or tawa, brush with oil, and grill the chicken on both sides until golden brown.

Alternatively, grill in a preheated oven at 220°C for 5–6 min. Once cooked, let it cool slightly, then shred into thin strips. Keep aside.

Every year on Christmas my father always cooks Christmas dinner. His signature is Sausage meat stuffing. He always cooked two, one for me and one for the rest of the family. It's easy to make and a perfect filler for a great dinner. A few slices, some spuds, some veg and lots of gravy with a glass of wine and you'll be full and happy. Also if vegetarian the sausage meat can be replaced with vegetarian sausages and is equally as delicious.

› LENTILS WITH SPÄTZLE

PREP: 15 min

COOK: 40 min

SERVINGS: 4

INGREDIENTS

1 liter vegetable or meat broth

8 Vienna sausages/Frankfurters
(or 4 pairs)

400 g Spätzle or Knöpfle
from the refrigerated section,
alternatively homemade

250 g plate lentils
(German lentils), **light brown**

250 g soup vegetables,
uncleaned (celeriac, carrots,
leek, parsley)

2 tbsp. tomato paste

1 red onion (approx. 80 g)

40 g butter

20 g flour, Type 405
(all-purpose flour)

2 bay leaves

1 tsp. marjoram (dried)

1-2 tbsp. balsamic vinegar
(alternatively red wine vinegar)

Salt (freshly ground)

Black pepper (freshly ground)

INSTRUCTIONS

1 First, clean or peel and wash the 250 g soup vegetables and 1 onion. Cut the onion, carrot, and celery into very small cubes (the lentil vegetables shouldn't be too coarse and chunky!).

Clean, wash, and cut the leek into fine pieces as well. Wash the parsley and shake it dry. Rinse the 250 g plate lentils in a sieve if desired.

2 Then melt 40 g butter in a medium-sized pot and whisk in 20 g flour with a whisk. Let it bubble over medium heat until the flour-butter mixture is lightly browned.

3 Now add the cut vegetables and the 250 g plate lentils to the flour-butter mixture and sauté for 3-5 minutes. Then add 2 tbsp tomato paste, 1 tsp dried marjoram, and 2 bay leaves. Pour in 1 liter of broth and stir well. Let the lentil-vegetable mixture simmer in an uncovered pot for 35 minutes, stirring occasionally. Add a bit more water if needed.

4 Test the lentils: If they're done, season everything with 1-2 tbsp vinegar, approx. ½ tsp salt, and freshly ground black pepper. Remove the bay leaves, finely chop the parsley and stir it in.

NOTE: Only season the lentils with vinegar at the end, as vinegar hardens the lentil skins and they won't soften properly.

5 Now heat the 8 Vienna sausages/frankfurters (4 pairs). To do this, simply place them on top of the finished lentil vegetables and let them heat for 5 minutes with the lid closed. (Or let them steep separately in a pot with hot water for a few minutes).

6 Meanwhile, add the spätzle to boiling salted water and let them cook for 1 minute. Drain and stir in 1 tsp butter flakes.

7 Serve the lentil vegetables with sausages and spätzle. Enjoy your Swabian meal!

Guten Appetit!

BEEF WELLINGTON

INSTRUCTIONS

PREP: 20 min

COOK: 15 min

CHILL: 20 min

BAKE: 35 min

INGREDIENTS

400 g flat cap mushrooms
roughly chopped

sea salt and freshly ground black pepper

olive oil (for cooking)

750 g piece of prime beef fillet

1–2 tbsp. English mustard

6–8 slices of Parma ham

500 g ready-made puff pastry

flour (to dust)

2 egg yolks, beaten

1 Put the mushrooms into a food processor with some seasoning and pulse to a rough paste. Scrape the paste into a pan and cook over a high heat for about 10 mins, tossing frequently, to cook out the moisture from the mushrooms. Spread out on a plate to cool.

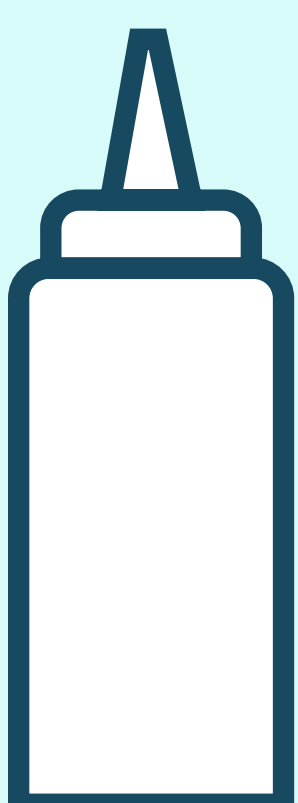

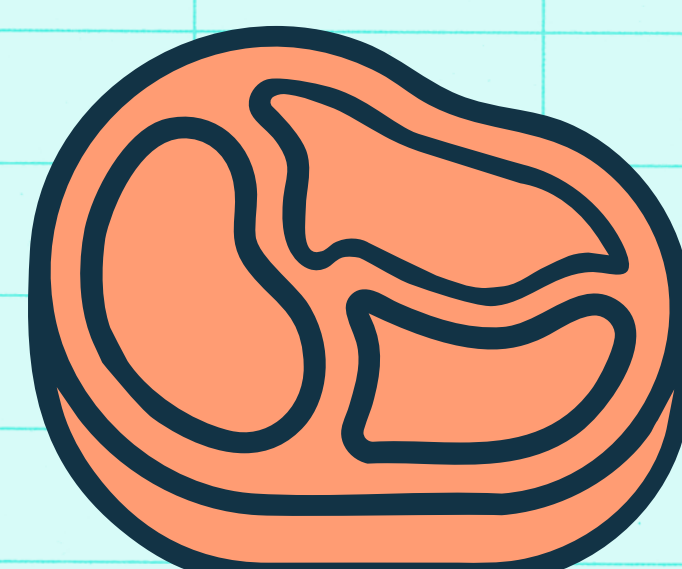

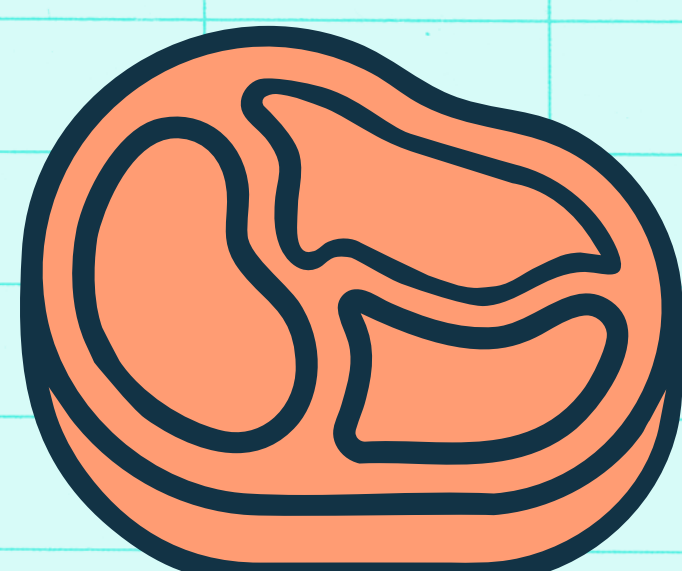

2 Heat in a frying pan and add a little olive oil. Season the beef and sear in the hot pan for 30 secs only on each side. (You don't want to cook it at this stage, just colour it). Remove the beef from the pan and leave to cool, then brush all over with the mustard.

3 Lay a sheet of cling film on a work surface and arrange the Parma ham slices on it, in slightly overlapping rows. With a palette knife, spread the mushroom paste over the ham, then place the seared beef fillet in the middle. Keeping a tight hold of the cling film from the edge, neatly roll the Parma ham and mushrooms around the beef to form a tight barrel shape. Twist the ends of the cling film to secure. Chill for 15–20 mins to allow the beef to set and keep its shape.

4 Roll out the puff pastry on a floured surface to a large rectangle, the thickness of a £1 coin. Remove the cling film from the beef, then lay in the centre. Brush the surrounding pastry with egg yolk. Fold the ends over, then wrap the pastry around the beef, cutting off any excess. Turn over, so the seam is underneath, and place on a baking sheet. Brush over all the pastry with egg and chill for about 15 mins to let the pastry rest.

5 Heat the oven to 200°C, 400F, gas 6.

6 Lightly score the pastry at 1 cm intervals and glaze again with beaten egg yolk. Bake for 20 mins, then lower the oven setting to 180°C, 350F, gas 4 and cook for another 15 mins. Allow to rest for 10-15 mins before slicing and serving with the side dishes of your choice. The beef should still be pink in the centre when you serve it.

When the Asian market opened in town, we went a bit overboard buying new sauces. This bowl is what we figured out after playing around with what we brought home. It's basically our weekday lunch now. One of us cooks the beef while the other makes the sauce, mix the bulgogi sauce with gochujang, soy sauce, vinegar, honey, and garlic. It's got a good kick but the honey keeps it balanced. Fry up a couple eggs, toss everything over rice, add some scallions and sesame seeds. The whole thing takes about 20 minutes and uses stuff we usually have around. It's spicy enough to feel like a treat but easy enough that we don't think twice about making it when we're working from home. Quick and filling.

LUNCHTIME BULGOGI BOWL

PREP: 10 min

COOK: 10 min

SERVINGS: 2

INGREDIENTS

**3 beef minute steaks/
medallions**

1 cup of rice

2 eggs

SAUCE

**4 tbsp. korean pork bolgogi
sauce**

1 tbsp. gochujang

2 tbsp. soy sauce (dark/light)

1 tbsp. rice wine vinegar

1 tbsp. honey

½ tbsp. garlic paste

GARNISH

Pinch of sesame seeds

2 scallions (chopped)

INSTRUCTIONS

1 Begin by cooking your rice in a rice cooker or pot, salt the water beforehand.

2 While the rice is cooking, chop your beef medallions into thin (very thin) strips.

3 Prepare the sauce by mixing the bulgogi, gochujang, soy sauce, rice wine vinegar, honey and garlic paste in a cup.

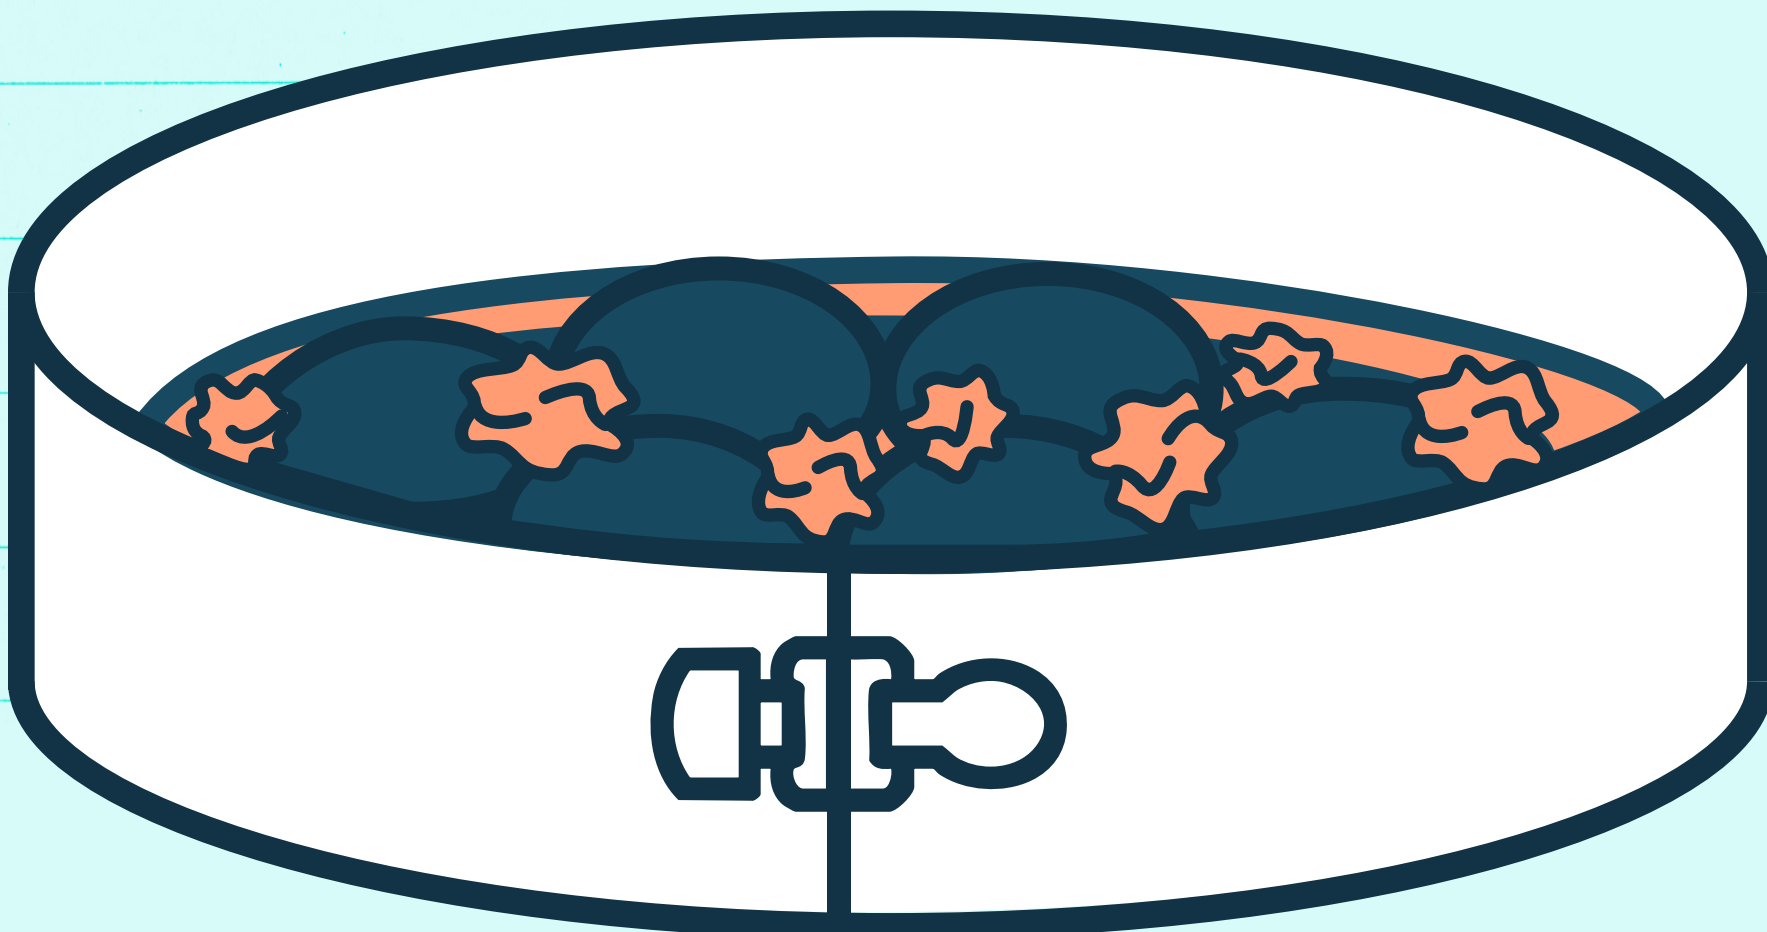

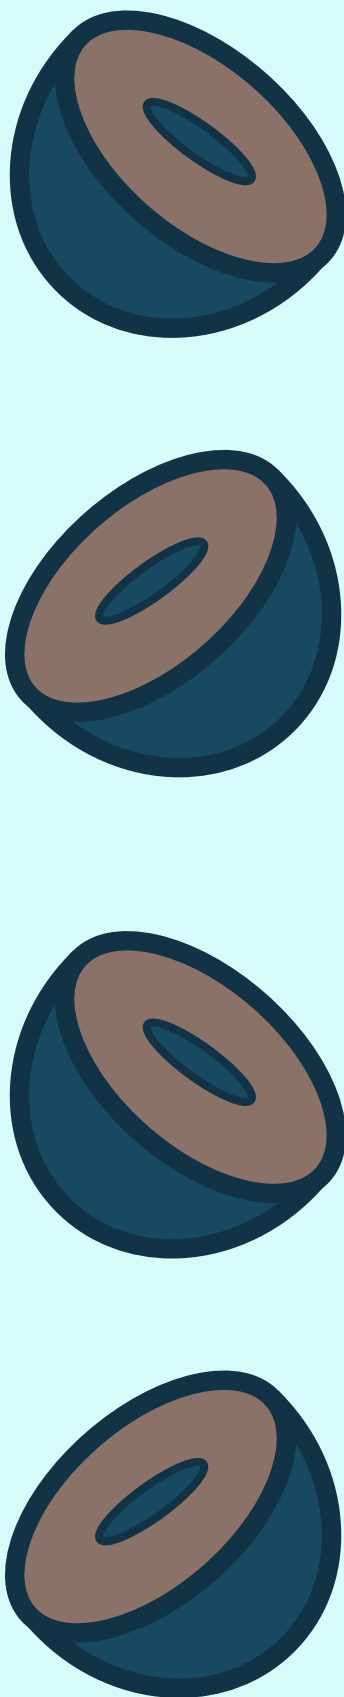

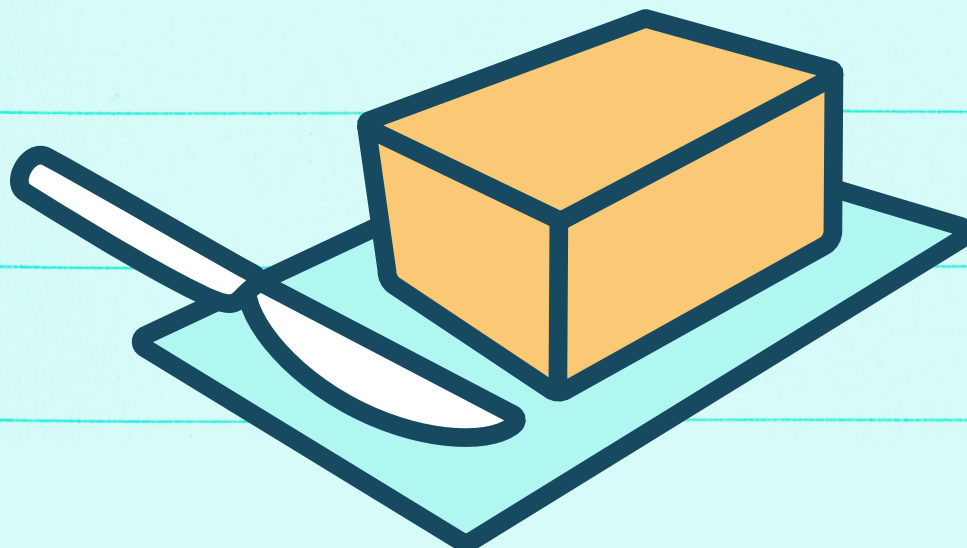

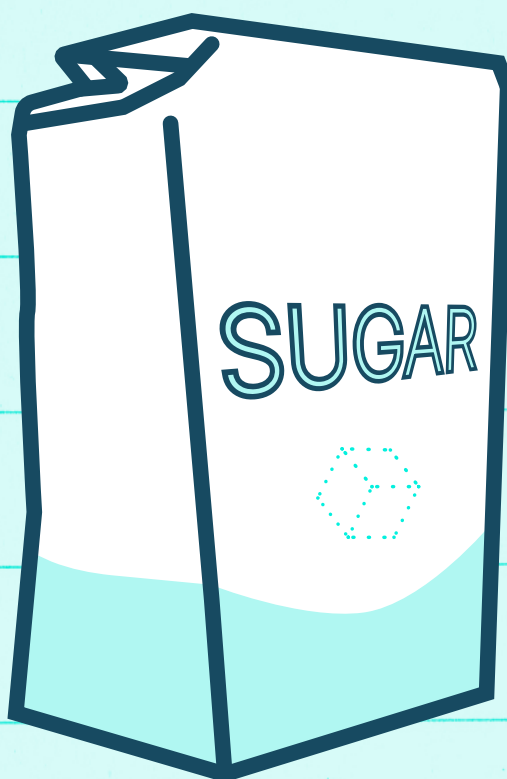

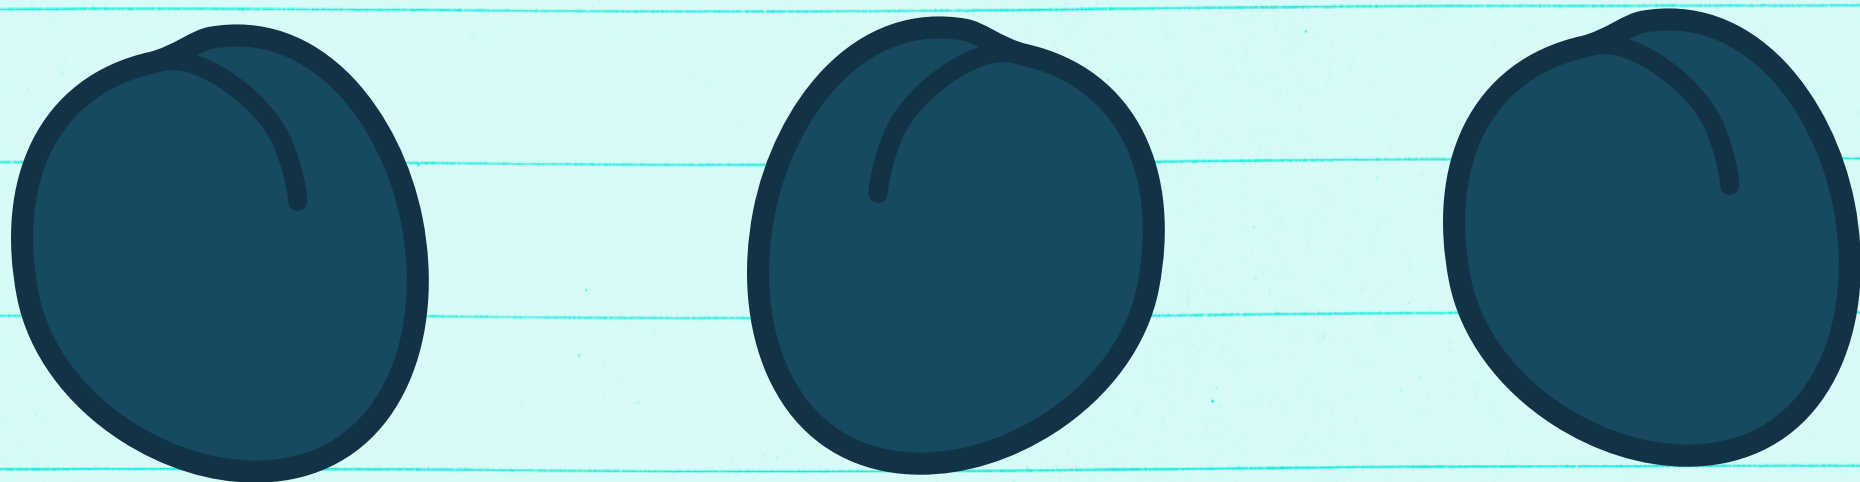

4 Pre-heat a skillet on medium-high heat.

5 Cook the beef medallions on the skillet until brown, pour the sauce into the skillet and lower heat, mixing often to avoid burning the honey.

6 While the sauce is cooking into the meat, crack two eggs into a pan and cook sunny side up.

7 Divide cooked rice into two bowls, top with cooked beef, egg, chopped scallions, and a pinch of sesame seeds.

8 Serve!

PLUM PIE

PREP: 30 min

BAKE: 60–80 min

INGREDIENTS

12 to 16 plums
(depending on size)

200 g margarine or mustard
(depending on personal preference)

220 g wheat flour

80 g rolled oats

180 g sugar
(or 100 g sugar plus another sweetener)

1 packet vanilla sugar

1 pinch of salt

INSTRUCTIONS

- 1** Allow the butter to soften slightly.
- 2** Preheat the oven to 200°C (top/bottom heat) or 180°C (fan).
- 3** Grease the springform pan with butter.
- 4** Put the butter, flour, rolled oats, sugar, vanilla sugar, and salt into a mixing bowl.
- 5** Using a hand mixer with a whisk, mix until coarse crumbs form.
- 6** If the dough doesn't come together, shape it briefly by hand into small balls, then continue mixing until crumbly.
- 7** Set aside about half of the crumble for the topping.
- 8** Sprinkle a few handfuls of crumble onto the base of the pan and press down by hand to form a thin, even crust—as thin as possible, but still firm enough to hold together.
- 9** Shape some of the dough into “sausages” and press them along the edge of the pan to create a rim about 2 cm high.

10 Cut large plums into quarters and small ones into halves. Arrange them alternately skin-side up and flesh-side up, covering the base completely without overlapping. (If you have too many plums, save the rest for another use.)

11 Sprinkle the remaining crumble loosely over the plums.

12 Cover the pan loosely with aluminum foil.

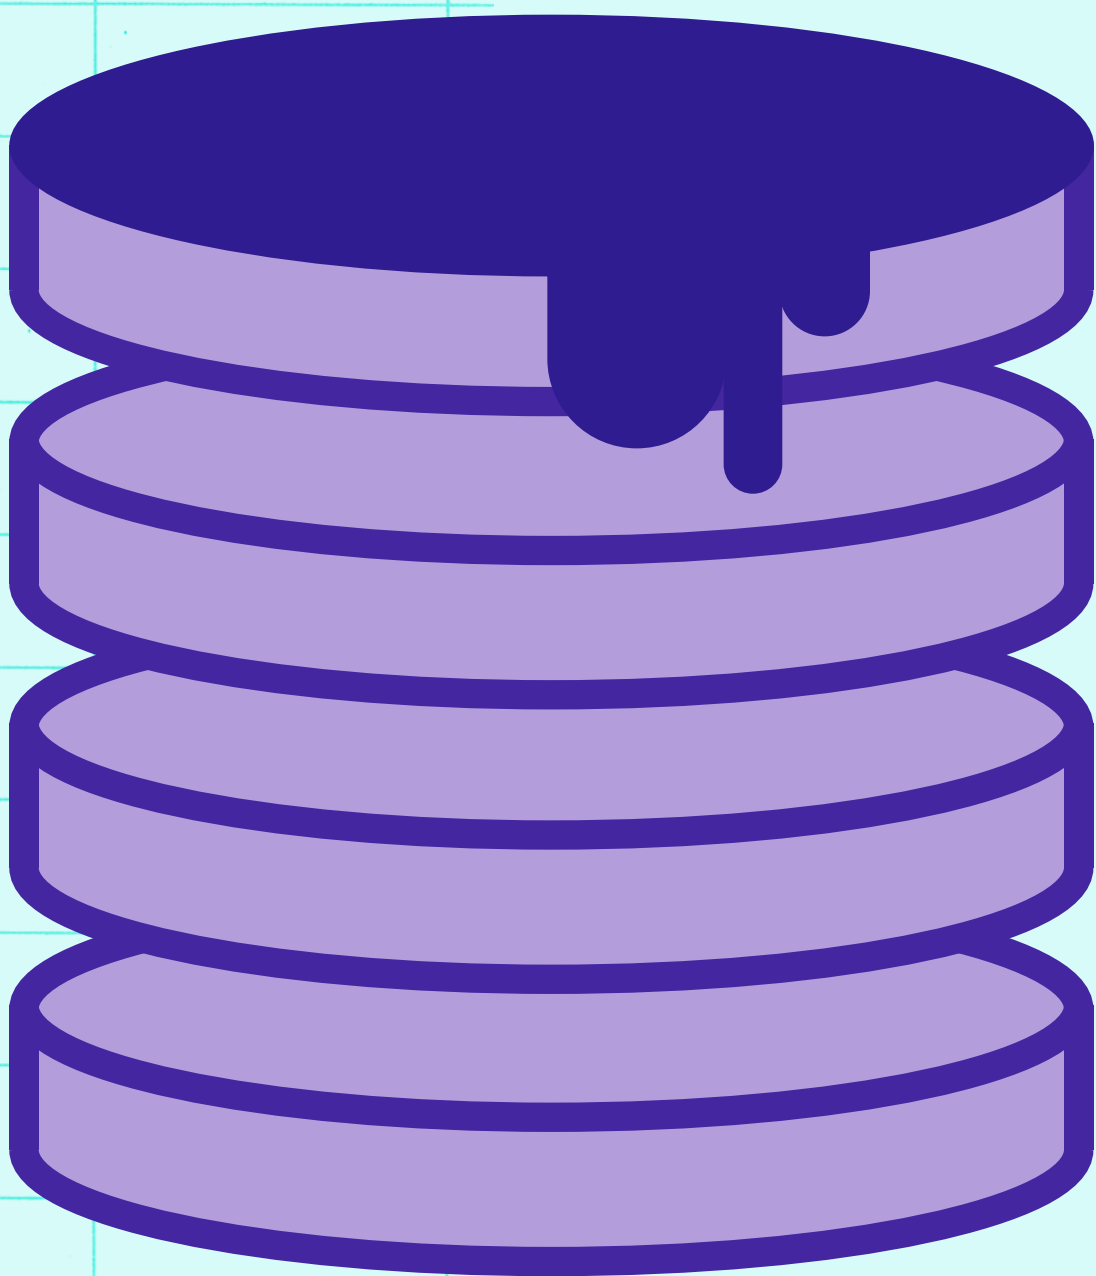

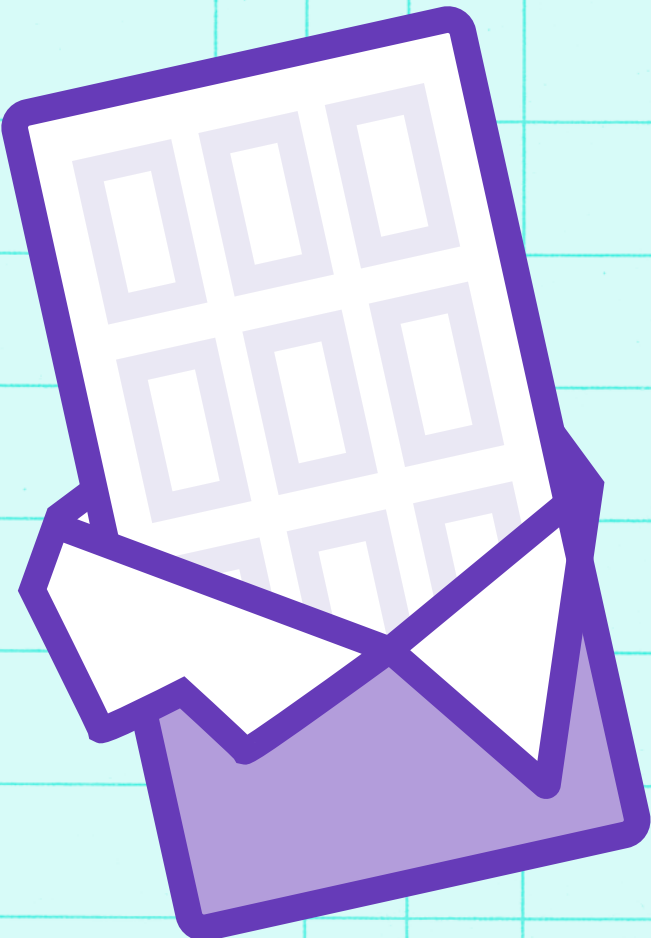

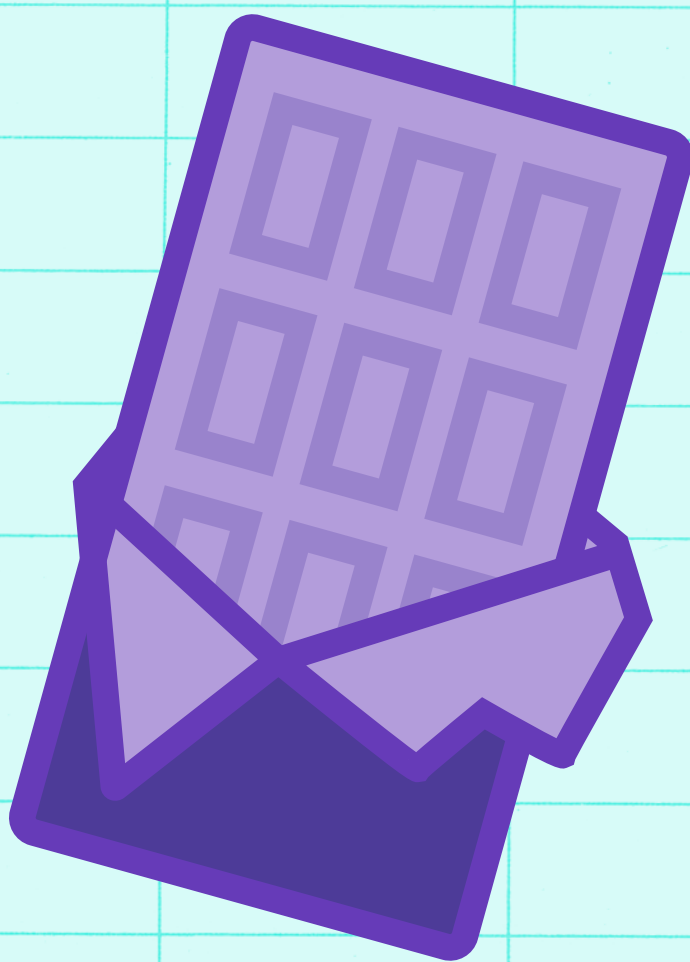

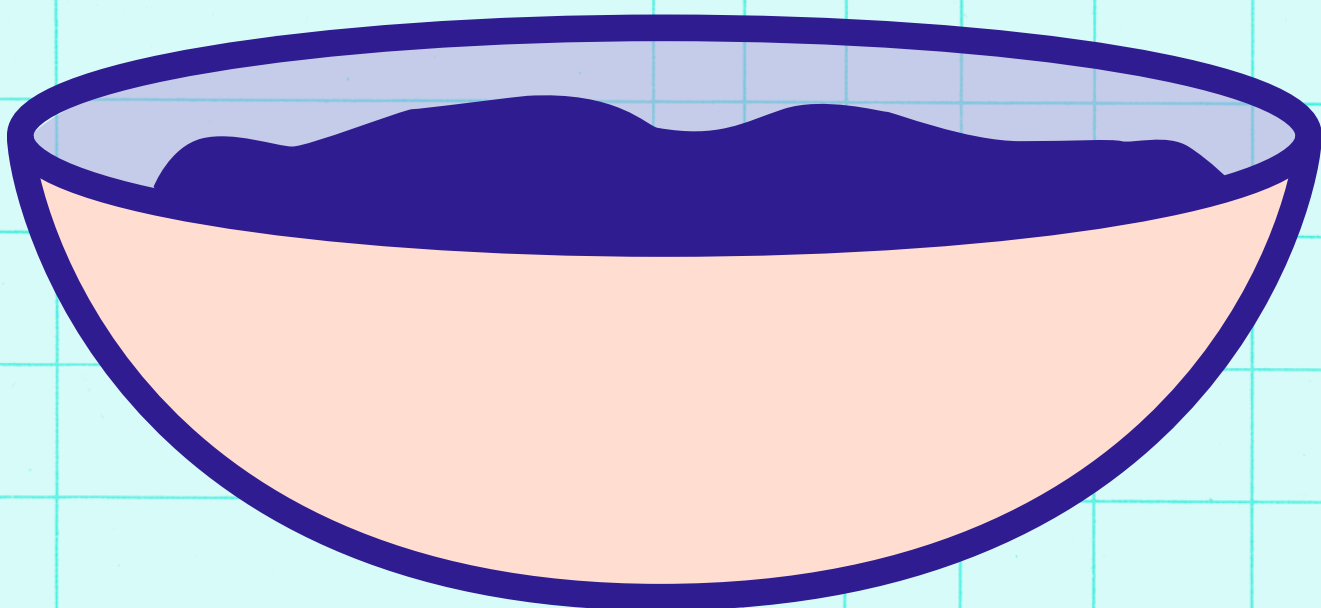

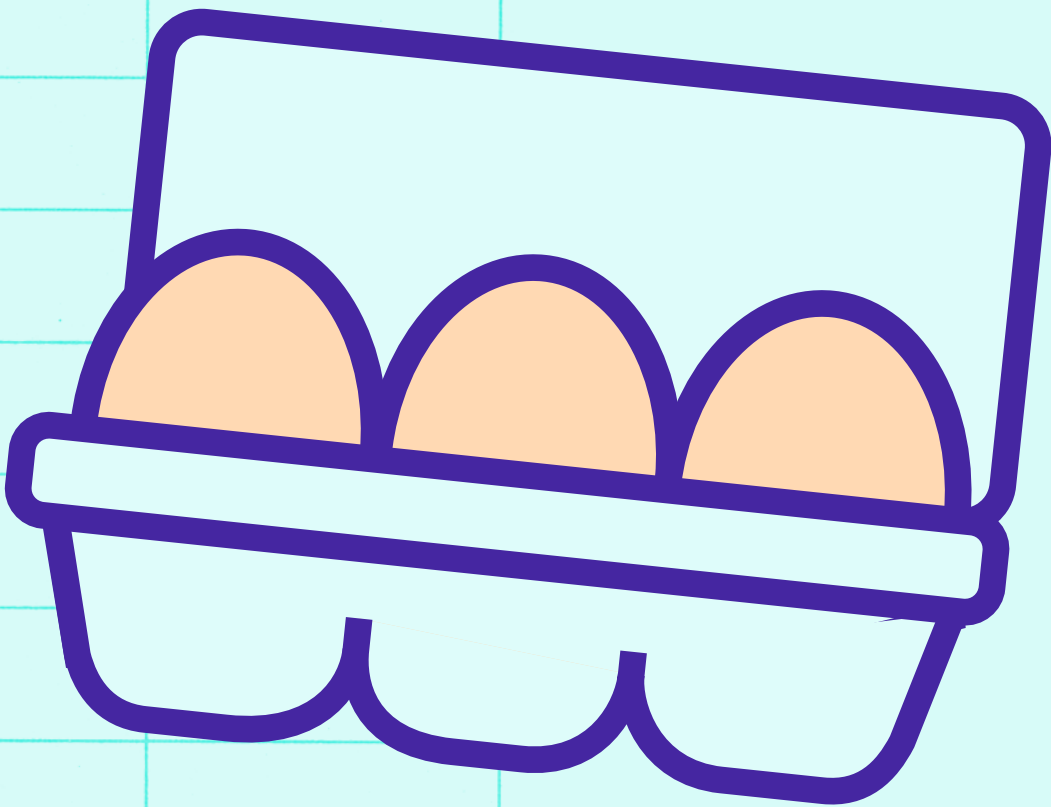

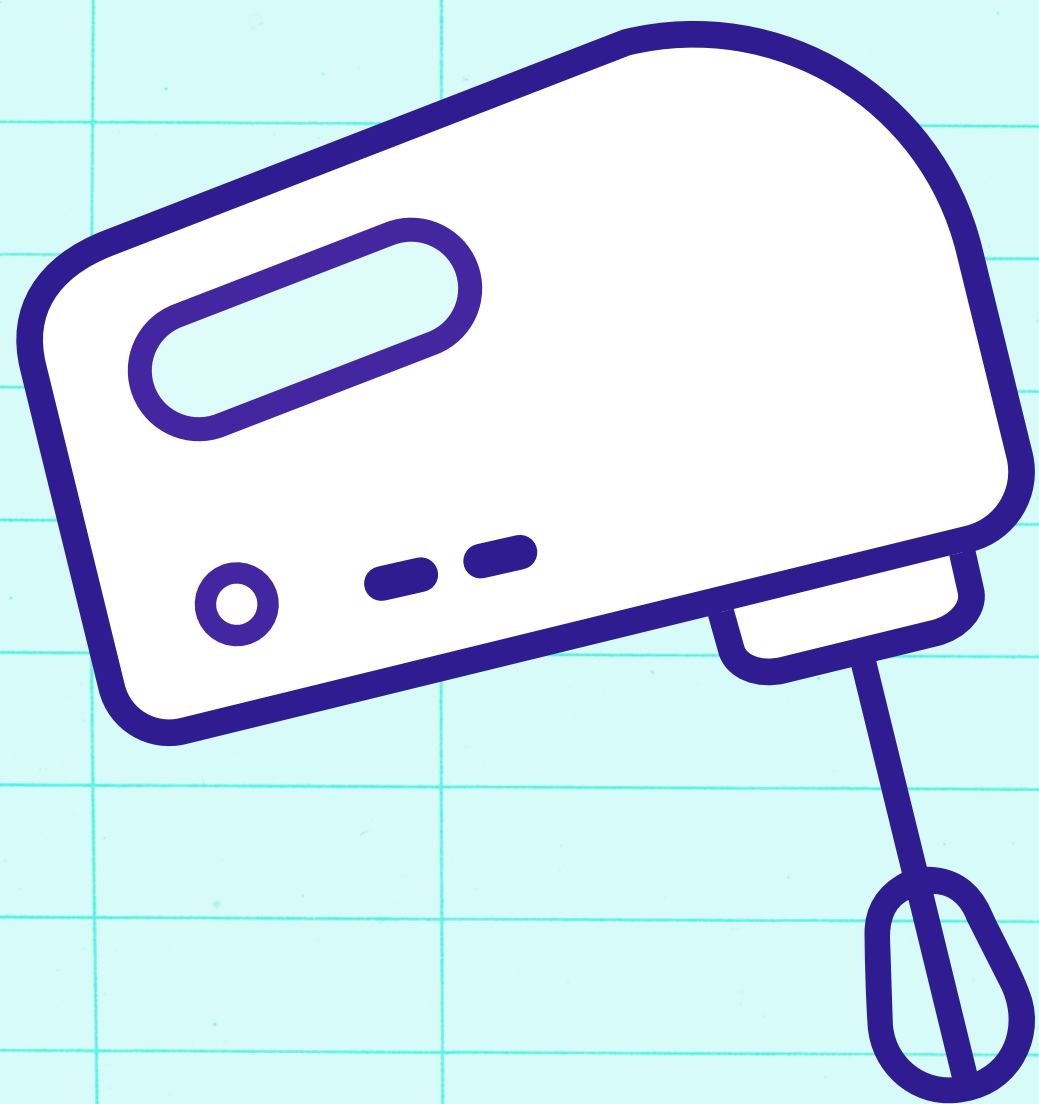

13 Bake for about 60–80 minutes, checking after 50 minutes.

14 Remove the foil once the plums have softened (after about 40–50 minutes).

15 Continue baking until the crumble is golden brown.

16 Let the cake cool slightly before removing from the pan.

DARK CHOCOLATE GANACHE CAKE

INGREDIENTS

GANACHE

1 pound chocolate, semisweet
(very finely chopped)

1 pound chocolate, bittersweet
(very finely chopped)

4 cups heavy cream

¼ cup good-quality honey

½ tsp. coarse salt

1 vanilla bean
(split in half lengthwise,
or 1 tbsp. pure vanilla extract)

CHOCOLATE SPONGE CAKE

2 cups all-purpose flour

**1 ⅓ cups good-quality
unsweetened cocoa powder**
(plus extra for dusting)

2 ⅔ cups granulated sugar

1 ½ tsp. baking powder

2 ½ tsp. baking soda

½ tsp. coarse salt

4 large eggs

2 tsp. pure vanilla extract

11 tbsps. unsalted butter, melted
(1 stick plus 3 tablespoons)

1 ⅓ cups buttermilk

**1 ⅓ cups brewed American
coffee**

INSTRUCTIONS

To make the ganache

1 Place all the chocolate in a heatproof bowl, set aside. In a medium saucepan, combine the cream, honey, and salt. Scrape the tiny black seeds from the vanilla bean pod, if using, into the cream, and add the pod. Bring the cream to a boil, pour over the chocolate, and let stand for 5 min. to melt the chocolate. Whisk until smooth. Strain through a fine strainer into a bowl. Discard the vanilla bean. Stir in the vanilla extract, if using. Cover with plastic wrap and let stand at room temperature until the ganache stiffens, at least 6 hours or overnight.

(Or, place in the refrigerator and chill, stirring every 20 to 30 minutes, until the ganache stiffens.)

2 Preheat the oven to 350°F.

Butter two 9 by 2-inch round cake pans. Line the bottoms with a round of parchment paper and dust with a little bit of cocoa powder, tapping out any excess.

Make the cake

3 In a bowl of an electric mixer fitted with the paddle attachment, sift in the flour, cocoa, sugar, baking powder, baking soda, and salt. Mix on low speed to combine.

PREP: 30 min

REST: 6 h

BAKE: 40 min

COOL: 10 min

4 Add the eggs, vanilla, melted butter, buttermilk, and coffee. Mix on low speed until fully combined. Pour the batter into prepared cake pans. Bake on a baking sheet until a cake tester inserted in the middle comes out clean, 35 to 40 min. Transfer to a wire rack and let cool in the pans for 10 min. Then unmold the cakes onto the rack and let cool completely.

5 Using a serrated knife, slice the top about $\frac{1}{4}$ inch off each cake to level it, if necessary. Discard the top pieces. Splice each cake horizontally into two layers for a total of four layers. Place the bottom layer on a 9-inch cake round, a turntable, or a platter, and using an offset spatula, spread thickly with about $1\frac{1}{2}$ cups of the ganache. Repeat with the second and third layers, spreading another $1\frac{1}{2}$ cups ganache over each layer. Add the final cake layer and spread it with a very thin layer of ganache (this is your crumb layer). Place the cake in the refrigerator until the crumb layer is set, about 30 min.

6 Remove the cake from the refrigerator and place it on a wire rack set over a sheet pan. In the top of a double boiler set over simmering water, heat the reserved ganache just until liquid. Pour the ganache over the top of the cake, allowing it to run down the sides. Using a large offset spatula, help spread the ganache from the center to the edges so the cake is completely covered. Smooth the top and sides. Refrigerate to set, about 30 min. Serve at room temperature.

- 1** Mix raisins with a portion of the sugar and sprinkle generously with rum. Let steep (one day in advance).
- 2** Make a pre-dough from the crumbled yeast, remaining sugar, and milk. Let rise at about 37°C for approximately ½ hour.
- 3** Mix the remaining ingredients (except melted butter and powdered sugar) and add to the pre-dough. Knead everything well and let the dough rise for another ½ hour.
- 4** Form 3 stollen loaves.
- 5** Preheat convection oven to 170°C and bake the stollen for 30 min. Turn off the oven and leave the stollen in the oven for another 10 min. (the stollen should still be slightly moist inside as it will continue to dry).
- 6** Brush the still-warm stollen with melted butter and dust with powdered sugar after cooling.
- 7** Wrap well in aluminum foil.

› I came to Berlin in 2010 and these biscuits quickly became the taste of Christmas for me. I used to take boxes of Vanillekipferl home to England for my parents, and now I bake them each year with my children. It's one of those recipes that marks the beginning of the season for us—messy hands, clouds of icing sugar, and the smell of butter and vanilla filling the kitchen. ‹
